

## INTERPIG 2020 – SUMMARY

The source of the information is the data base of the InterPIG group. SIP has been a member of InterPIG since 2006. All the results are shown in live weight.

This document is a summary of the most significant results of the main European countries in the pig production. It compares the results of Spain (SP) and the group EU4 (France, Germany, Denmark, and Netherlands).

### Results 2020

The (net) **Sales prices** in Spain (130,1 c€/kg) has been 7,4 c€ higher than the EU4 group (122,7 c€/kg).

The **Production cost** in Spain (108,0 c€/kg) has been 9,2 c€ lower than the EU4 group (117,2 c€/kg).

As a result, the **Economic margin** has clearly favourable to Spain, with a difference of 16,6 c€/kg (Spain: +22,1 c€/kg – EU4 group: +5,5 c€/kg).

*values in c€/kg live*

	Net sales price	Production cost	Economic margin
SP	130,1	108,0	22,1
EU4	122,7	117,2	5,5
<b>Dif ES-EU4</b>	<b>7,4</b>	<b>-9,2</b>	<b>16,6</b>

The advantage of Spain in the Production cost is based on the H&M cost (Housing and Management), which is significantly lower than the EU4 group cost (SP: 28 – EU4: 42 c€/kg).

### Evolution 2019 – 2020

The **Sales Price** has remained stable in Spain. In the EU4 group it has decreased by 5,6 c€/kg (2019: 128,3 – 2020: 122,7 c€/kg).

Within the EU4 group, Denmark presents a different evolution than the other countries: the sale price increases 8 c€/kg.

The **production cost** remains fairly stable both in Spain and in the EU4. It has increased slightly in Spain (0,8 c€/kg) and has decreased slightly in the EU4 group (0,7 c€/kg).

The resultant **Economic margin** has been reduced, in Spain by 1,1 c€/kg and in the EU4 group by 4,9 c€/kg.
